

January 3, 2008

To my fellow engineers:

Your interest in High-Speed Digital Design is much appreciated. The MathCad files in this directory were created using MathCad version 13.1. If you use the book or these files to particular advantage, please write to tell me about it. I am always delighted to learn about new, creative uses of the principles of signal integrity.

Thanks again for your interest, and I look forward to hearing from you.

Best regards,
Dr. Howard Johnson
